

Claude Certified Architect – Foundations

Validates that you can scope and design Claude-based solutions: selecting the right model and deployment platform, framing agentic versus single-shot architectures, and accounting for evaluation, cost, and responsible deployment from day one.

Domains covered

Agentic Architecture & Orchestration	27%
Tool Design & MCP Integration	18%
Claude Code Configuration & Workflows	20%
Prompt Engineering & Structured Output	20%
Context Management & Reliability	15%

Format

Question types	Multiple choice and multiple response
Passing score	720 (scaled 100–1,000)
Delivery	Online proctored or Pearson test center

Prepare for this exam

These free courses on the Anthropic Academy cover the domains above. Most candidates complete them in order, then register.

Claude Cowork is now just Claude. Rolling out to Pro and Max, with more plans to follow. What you learn here still works. Just ask Claude.

AI Fluency: Framework & Foundations

Level 100

[See what changed](#)

Learn to collaborate with AI systems effectively, efficiently, ethically, and safely.

Claude 101

Level 100

Use Claude for everyday work tasks, understand core features, and explore resources for more advanced learning.

Building with the Claude API

Level 100–200

Working with Anthropic models using the Claude API — from authentication, prompt engineering, and evaluations through tool use, RAG, agents, and production patterns.

Claude with Amazon Bedrock

Level 100–200

Working with Anthropic models through Amazon Bedrock — setup and foundational concepts through tool use, RAG, agents, and production patterns.

Claude on Google Cloud

Level 100–200

Working with Anthropic models on Google Cloud — setup and foundational concepts through tool use, RAG, agents, and production patterns.

Introduction to Model Context Protocol

Level 200

Build MCP servers and clients from scratch using Python. Master tools, resources, and prompts to connect Claude with external services.

Claude Code in Action

Level 200

Integrate Claude Code into development workflows — context management, hooks, custom commands, and the Agent SDK.

Claude Cowork is now just Claude. Rolling out to Pro and Max, with more plans to follow. What you learn here still works. Just ask Claude.

Help shape Claude certifications

We're building the assessments that validate Claude skills and knowledge, and we want hands-on Claude experts involved in shaping them. Join our SME network to help define what gets tested, review questions, or set passing standards. Signing up takes five minutes and doesn't commit you to anything. We'll reach out when a project fits your background.
