

RAJENDRA VERMA

AI/ML Solutions Architect | Sr. Technology Consultant

rajendrarajaramv@gmail.com | +91 7000-201-0326 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Strategic AI/ML Solutions Architect with **10+ years** of full-stack engineering expertise and **1+ year** of hands-on Generative AI experience. Specialized in designing end-to-end AI solutions, evaluating LLMs (Claude AI, OpenAI), and integrating AI into enterprise applications. Proven track record consulting with enterprise clients on AI opportunities, technology selection, and implementation. Actively pursuing Claude certification.

CORE TECHNICAL SKILLS

Languages:	Kotlin, Java, Python, Dart (Flutter), C++
Mobile:	Jetpack Compose, KMP, Android SDK, Flutter
AI & LLMs:	Claude AI, OpenAI, RAG, Prompt Engineering, LangChain
Cloud:	AWS, GCP, Firebase, Lambda, AppEngine
Backend:	FastAPI, Flask, REST APIs, Ktor, WebRTC
Databases:	SQLite, Room, Realm, Vector DBs, Pinecone, Weaviate

AI/ML EXPERTISE

Generative AI:	Claude AI, OpenAI GPT, LLaMA, Fine-tuning
Architecture:	RAG, Agentic Workflows, LLM Chaining, Multi-model Orchestration
Solution Design:	LLM Evaluation, Cost Analysis, Implementation Roadmaps

PROFESSIONAL EXPERIENCE

Sr. Technology Consultant & AI/ML Solutions Architect

Apr 2025 – Present

Techment, Indore, India

- Design enterprise AI/ML solutions leveraging Claude AI, OpenAI; evaluate AI platforms for client needs
- Partner with enterprise clients to identify AI opportunities and architect end-to-end implementations
- Architect RAG systems, prompt engineering strategies, and multi-model AI workflows
- Lead modernization of Android applications with AI features using Jetpack Compose and KMP

Technology Consultant

Apr 2023 – Apr 2025

Techment, Indore, India

- Developed production-grade Android applications; architected solutions using Jetpack Compose
- Conducted technical assessments; recommended solutions leveraging cloud services and modern frameworks
- Managed code reviews; ensured adherence to SOLID principles and best practices

Sr. Software Engineer

Jun 2021 – Apr 2023

Techment, Indore, India

- Architected Android applications with BLE 6.0 (5.4) technology for medical device integration
- Implemented secure Bluetooth communication protocols for healthcare applications

Mobile Technology Consultant

Jan 2020 – Jun 2021

JStech Alliance, Indore, India

- Developed and maintained 15+ Android applications across 8+ countries with localization
- Reduced bug reports by 40% through comprehensive automated testing strategies

FEATURED PROJECTS

BenchPrep Learning Platform | Techment

Comprehensive standardized test prep and continuing education platform

- Spearheaded migration from legacy Android to Jetpack Compose with successful delivery
- Architected Kotlin Multiplatform (KMP) transition for unified iOS/Android codebase

Tech: Jetpack Compose, KMP, Material 3, REST APIs

Meeting Maker | AI-Powered Personal Project

Intelligent meeting transcription and note generation system

- Built full-stack Android app using Jetpack Compose with Python/FastAPI backend
- Integrated LLM processing (OpenAI & Gemini APIs) for automated meeting analysis
- Leveraged Claude AI for code architecture and optimization decisions

Tech: Jetpack Compose, Ktor, Python/FastAPI, LLMs

WellDoc BlueStar | Digital Health Platform

Mobile health solution for chronic disease management

- Developed BLE 6.0 (5.4) integration for secure medical device communication
- Architected multi-flavor app supporting different healthcare client domains

Tech: Kotlin, Jetpack Compose, BLE, Firebase

Techment Hackathon CodeCompass 🏆 2nd Prize Winner

Innovative AI/mobile solution showcased at Techment hackathon competition

- Developed and presented comprehensive solution earning **2nd Prize** among competing teams
- Demonstrated AI/ML integration capabilities with mobile-first architecture
- Showcased modern development practices and innovative problem-solving approach

Tech: Mobile Development, AI Integration, Full-Stack Architecture

Repository: github.com/MsTechmentTechnology/Techment-Hackathon-Codecompass

EDUCATION

Master of Computer Applications (MCA) | Manipal University, Jaipur | Nov 2025
Master of Science in Bioinformatics | DAVV University, Indore | Oct 2011

CERTIFICATIONS

Claude AI Certification | Anthropic | In Progress
Advanced AI and Machine Learning Techniques | Microsoft | Jul 2025
Machine Learning Capstone | IBM | Jul 2025
Research Methodologies | Queen Mary University of London | Jul 2025

KEY ACHIEVEMENTS

- AI/ML & Architecture:
- Architected LLM-powered meeting transcription system with Claude/OpenAI integration
 - Designed end-to-end AI solution architecture leveraging Claude API for code generation
 - Evaluated and recommended optimal LLM selection for enterprise use cases
- Engineering & Delivery:
- Won **2nd Prize** at Techment Hackathon CodeCompass for innovative AI/mobile solution
 - Migrated legacy Android applications to modern Jetpack Compose architecture
 - Reduced bug reports by 40% through comprehensive automated testing
 - Delivered 15+ production applications across 8+ countries with multi-language support
